I know I've let you down again
It seems so much of me is where I've been
I feel bad about all the times I've missed with you
There's so much inside of me that needs to be made new
I want to run and hide do you really want me to stay
With everything I feel, I still feel so far away
Broken down, undone, all that's left to do is pray
Until I find your eyes I don't know it's gonna be okay

All I want is you, right here, right now, right here, right now (2x)

You know to get from here to there, it seems to take so long
It seems like every little thing I do just turns out wrong
And all I really want from you is to belong
Then I hear from heaven you singing this song

All I want is you, right here, right now, right here, right now (2x)

Accepted, beloved, belonging, when I don't belong
Covered by your love, made right when I was wrong
Embrace me, kiss me, love me, all night long
And while your doing that won't you hear me sing this song

All I want is you, right here, right now, right here, right now (2x)

All I want is you, right here, right now, right here, right now (2x)
