

PRAYER FOR GLORIA

I used to hear angels voices
I've been missing you
Near fatal choices
Have torn me in two
I'm like a bead on a rosary
Like a vigil burning
Weary hands reach out in for thee

I'll fly away on wings of faith God speed to me
I'll hold my gaze through darkened days God speed to me

I'm cradling what's left of me
In my hall with my memories
In a desperate breath I breathe
I give you my spirit
I see the cross on the wall
Arms stretched to take it all
Whispering to come to me

I'll fly away on wings of faith God speed to me
I'll hold my gaze through darkened days God speed to me

Let the river rise, let the river rise
Wash over me
Oh Gloria, oh Gloria
wash over me

I'll fly away on wings of faith God speed to me
I'll hold my gaze through darkened days God speed to me
