

SUPER LOVE

I'll walk this way, through sun and rain
and come what may, I'll face the pain

My Jesus may be simple in love but He's a super love

Super Love
He flies through the heavens and breaks down the walls
When we pray

You said you'd stay, through sun and rain
And come what may, you'd face the pain

My Jesus may be simple in love but He's a super love

Super Love
He flies through the heavens and breaks down the walls
When we pray

Shame, you don't hold me no more
Shame go on and hit the door
Shame, go ahead and leave
Shame your gonna lay down for me

Shame, He crucified you, He crucified you
The things we USED to do
He crucified!

Super Love
He flies through the heavens and breaks down the walls
When we pray
